Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our growing company is looking for a business modelling. Thank you in advance for taking a look at the list of responsibilities and qualifications. We look forward to reviewing your resume.

### Responsibilities for business modelling

- Take a lead role in supporting clients throughout decision making processes, using outstanding technical and commercial skills on transactional and strategic mandates
- Take responsibility for delivering engagements – being primary client relationship holder
- Possibly be seconded to a client to work directly within their business and report to a senior member of the client's team
- Work to tight deadlines, adding value on complex, high profile and sensitive projects
- Take an active role in business development initiatives which could include being closely aligned to industry or sector groups
- Be expected to be innovative in developing client solutions and also in driving the team's strategy forwards
- Applying critical thinking skills to help interpret a client's business problem, thinking flexibly, determining alternatives, and finding innovative solutions
- Documenting the scope, specification and findings arising from decision support tools
- Development of business models, following good practice techniques
- Preparing presentation materials for senior stakeholders clearly articulating the implications of financial analysis

### Qualifications for business modelling

- Be able to influence opinions / decisions, successfully deal with ambiguity in requirements
- Exposure to Microsoft Technologies (FoxPro, VBA, C++, ) is advantageous
- Delivery focussed and proactive
- A thorough understanding of the end-to-end software systems development process is essential
- Working knowledge of project management, quality assurance and testing methodologies
