

# Example of Channel Product Manager Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our company is hiring for a channel product manager. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

## Responsibilities for channel product manager

- You will build products and experiences which enhance Schwab's omni-channel digital experience, and help to develop new ideas based on your interactions with stakeholders, customers and prospects
- Help innovate and support leading edge omni-channel ideas that will help shape the ways Schwab does business
- You will spend time in the market to understand common customer problems, and help find innovative solutions for our client base
- You may work with all levels of the company to produce new innovative solutions to Schwab's Omni-channels to define the go-to-market strategy
- Apply product management principles towards the enhancement and development of new features and capabilities
- Assist in completion of product roadmaps in concert with all relevant stakeholders (both internal and external)
- Assist in the development of product strategy and execution of the roadmap for new products and product enhancements
- Represent the Utility Capabilities team on projects, providing expertise and identifying opportunities to deliver enterprise-wide features and services that deepen customer engagement
- Lead the business case development and execution when required
- Ensure project(s) completion on time and within budget

## Qualifications for channel product manager

- Knowledge of custody, fund valuations, accounting and transfer agency services essential
- Thorough knowledge of Jersey regulatory environment for Funds and Trusts
- Risk management and controls skills
- Good report writing and technical skills
- Review and interpretation of legal documentation
- Managing performance - Understand P&L, Market trends and drivers for the solutions
