

Example of Director, Software Job Description

Powered by www.VelvetJobs.com

Our growing company is looking for a director, software. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for director, software

- Take lead on new technology initiatives, and working with the Predix/infrastructure teams to define requirements for them, which will help deliver value to our customers
 - Responsible for the project management and delivery of infotainment software and so will be closely working with customers on a needed basis
 - Manages the plan and schedule for the various customer SW releases to meet program milestones
 - Follows the software processes and make sure the team is aligned with the process and deliverables to meet the target goals
 - Collaborates with other Domain leaders to ensure all the teams deliver software in a timely manner
 - Collaborates with hardware team to ensure that hardware design changes are properly accounted for by the software team
 - Collaborates with Advance Manufacturing team to ensure that Head units are properly manufactured and tested end of the line using the software provided by SW domain teams
 - Create a clear plan of the various vehicle timelines and deliveries expected
 - Design architect, program and build applications for high transaction environments
 - Collaborate with scrum masters, product owners, and leadership to build a world-class product for our partners, advertisers, and users
-

- Experience with Deltek's CostPoint, CRM, Time and Expense financial systems, IBM's Cognos, and SharePoint
- Ability to create, modify, test, and document PL/SQL code, tables, packages, procedures, functions, and database triggers
- Experience leading cross-functional resolver groups
- Experience leading both onshore and offshore teams
- Able to demonstrate both continuous improvement and revolutionary development paths and advocate for both
- Demonstrated expertise as an individual contributor
