

Example of Equipment Service Technician Job Description

Powered by www.VelvetJobs.com

Our innovative and growing company is hiring for an equipment service technician. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for equipment service technician

- Communicate to the Supervisor any issues with equipment, tools, inspections, and HSE concerns
- Maintain safe work practices and follow policies and procedures
- Maintain a clean and safe work shop
- Installs and assembles Alpine equipment such as component saws, large conveyors, and rails at customer sites
- Reads and understands manuals, blueprints and schematic drawings to determine work procedures
- Repairs, troubleshoots, calibrates, and lubricates machines and equipment at customer sites
- Provides customer training on installed equipment
- Works in the office when not traveling, performing all tasks as required to provide customer service
- Ensures that tools and equipment are in good working order
- Displays a professional and courteous attitude to co-workers, managers, and the general public at all times
