

# Example of Finance Lead Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our innovative and growing company is looking for a finance lead. Thank you in advance for taking a look at the list of responsibilities and qualifications. We look forward to reviewing your resume.

## Responsibilities for finance lead

- Analyzing, calculating, recommending, and executing daily FX hedge action
- Providing coverage for other analysts in their absence and acting as a backup for the manager, responding to any Treasury related issues
- This role would require flexibility to work on certain Indian holidays as the JAPA markets are working on those days
- Drive and maintain the proper operating ethical standards
- Coordinate the analysis of financial data and presentation of financial reports in an accurate and timely manner
- Prepare detailed scoping documents relative to trading partners for business changes and ensure that key cross functional stakeholders are kept informed of changes
- Prepare detailed impact assessments to ensure all risks including ability to meet financial reporting requirements and timelines and also maintaining automation of business are managed and controlled
- Develop plans to implement these changes and work with teams in Trading Partner Finance and Invoicing operations to successfully build these plans into the operational teams
- Responsible for successful delivery throughout each stage of project lifecycle
- Responsible for contracts which relate to these Business Change Initiatives – ensuring they are negotiated to include the terms required by Supply Chain Accounting to enable successful delivery of the project

## Qualifications for finance lead

- 5-7 years of finance experience at multinational corporation, FP&A experience is a must
- Must have excellent and effective written and verbal communication skills as this role will be working closely with internal teams, clients and other relevant parties
- Real estate industry experience preferred but not required
- Lead the Finance team of Oracle ERP Cloud that includes Financials, Supply Chain, Purchasing, BI, and Technical Integration to 3rd party applications
- Thoughtful design of multidimensional chart of accounts and hierarchies is important for project success
