Responsibilities for innovation consultant

- Provide the opportunity to establish relationships across all areas of the organization and gain exposure to senior-level decision making
- Be proactive, self-aware, flexible, and able to establish deep relationships at all levels of the organization
- Be required to have strong quantitative skills, sharp business acumen, and the ability to solve complex business problems
- Serve as an internal consultant, helping our organization successfully navigate the changing healthcare landscape by bringing strategic insights, planning discipline, business development, and service line leadership skills in support of our mission
- Lead analyses, deliver insights, provide actionable recommendations, drive implementation, and foster innovation across a wide range of strategic initiatives and business problems
- Partner with clients and stakeholders to develop strategic plans, help manage execution of the plan, and launch key strategic initiatives
- Working with the clients' finance staff to identify and collate the associate qualifying costs
- Interpreting the tax rules governing the relief to ensure that only appropriate costs are included, working with engineers and scientists to ensure that the eligible activities are appropriately matched to the relevant costs
- Preparing the detailed analyses to support the figures included in the claim
- Assisting in the preparation of responses to HMRC enquiries

- 2 years of experience with SQL Server and TSQL
- Proven ability to manage and develop client relationships
- Expert level of knowledge of concepts and methodologies in the health care environment
- Subject matter expertise in federal and/or state healthcare policy, especially in the state of TN and with Medicaid SIM grants
- Subject matter expert in bundled payments, PCMH, total cost of care alternative payment methods and other payment innovation programs
- Functional Testing/QA Experience
