

Example of Interaction Designer Job Description

Powered by www.VelvetJobs.com

Our company is growing rapidly and is looking to fill the role of interaction designer. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for interaction designer

- Coordinate with our team of Creatives, Engineering, and Production between Dallas and Hyderabad India offices
- Create intuitive and elegant interaction design solutions that solve consumer problems and meet business needs
- In partnership with Strategy and Product teams, seek to understand consumer needs, opportunities and pain points to continually inform an iterative design and discovery process
- Create visual artifacts to articulate, inform and validate ideas (prototypes, wireframes, sketches, journey maps, personas)
- Stay current on all the tools, principles and practices in user-centered design and development, and engage in continuous improvement
- Communicate and collaborate with visual designers and developers through the implementation phase to realize design vision
- Work as core member of design team to understand and design for physical, cognitive, and emotional user needs of various stakeholders
- Solve complex design problems in simple and intuitive ways, that blending together brand personality, visual, motion and sound to create delightful experiences
- Be able to communicate complex topics in a simple way, whether on paper, face to face or when designing UI and UX
- Produce wireframes of concepts and ideas using traditional mediums and digital tools

-
- Expert knowledge of relevant design tools such as Omnigraffle, Axure, Adobe Creative Suite
 - Evidence of a rigorous and detailed approach to documenting interaction designs, including interface specifications and other interaction design deliverables
 - Degree in Graphic Design or other related design discipline preferred
 - Must have portfolio available for review - online preferred
 - A sense of style, a passion for working hard toward a common goal, a thrill for building a brand, and, of course, a car nut at heart
 - 4 years of experience in creating eLearning modules that deliver in HTML5
