

Example of Lab Intern Job Description

Powered by www.VelvetJobs.com

Our innovative and growing company is hiring for a lab intern. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for lab intern

- Create test set-ups with and without supervision
- Collect test data and monitor long-term tests
- Report test results, including completion of lab test request form, writing formal reports when appropriate
- Participate in lab maintenance and housekeeping activities
- Actively participate in quality improvement activities
- Actively take initiative to increase technical proficiency
- From the test results identify any design or manufacturing errors/issues to the project team
- Design and construction of simple test fixtures
- Perform daily chemical and microbiological lab analyses on juice/wine samples to ensure specifications are met
- Sample and analyze musts, juices, and wines using appropriate sampling procedures

Qualifications for lab intern

- Minimum of 3 months experience with loading operating systems, installing drivers and loading applications
- 2 years of experience using Operating Systems - Linux and Windows
- 6 months of experience in Agile Methodology
- Must be a US citizen due to US export control laws and regulations

- Demonstrated ability to troubleshoot both hardware and software related issues
