

Example of Medical Lead Job Description

Powered by www.VelvetJobs.com

Our company is growing rapidly and is looking to fill the role of medical lead. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for medical lead

- Develop a strong medical engagement plan, incorporating diverse Medical functions and capabilities
- Responsibility for both primary care products - focussed on urology, and products for rare diseases - focussed on pulmonary arterial hypertension
- Exposure to dermatology, Systemic Lupus Erythematosus and to novel pipeline assets
- The opportunity (for appropriately experienced candidates) to gain experience through delegated authority from the CMD
- Dotted line responsibility for 2 Scientific Advisors and a Medical Science Liaison
- Significant work experience in medical affairs roles in the pharmaceutical industry to at least Senior Medical Advisor level or equivalent
- A medical degree (MBBS equivalent) is required
- Relevant postgraduate qualifications in Pharmaceutical Medicine or Business Management and/or relevant therapy area expertise would be distinct advantages
- Monitor competitor promotional and scientific activities to understand their ongoing strategies, to assess their compliance with the Code of Practice
- Deliver scientific and medical content for medical advisory boards, chairing/co-chairing

Qualifications for medical lead

- Excellent understanding of the principles underlying real-world evidence generation
- Effectiveness in problem-solving within a large, multi-faceted corporate environment
- Ability to travel (U.S. and European)
- Working knowledge of basic statistics with ability to analyze descriptive and numeric data and present these with clarity and accuracy
- Available for occasional (less than 20%) overnight travel including internationally
