

# Example of Nurse Anesthetist Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our company is searching for experienced candidates for the position of nurse anesthetist. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

## Responsibilities for nurse anesthetist

- Maintain appropriate patient records including quality assurance documentation
- Complete postoperative evaluations in accordance with department policies
- Support perioperative providers
- Function in accordance with all institutional policies and guidelines
- Maintain licensure, certification, credentialing, and current BLS and ACLS status at all times
- This position requires radiation exposure and the requirement to wear the appropriate (PPE) personal protective equipment
- Must be able to fulfill required weekend obligations
- Must be self-directed, reliable, demonstrate initiative and motivation to work independently, and demonstrate excellent communication and problem solving skills
- Serve as preceptor/daily supervisor for student nurse anesthetist clinical training experiences
- Foster a high level of patient and staff satisfaction

## Qualifications for nurse anesthetist

- Minimum of 1 year experience as a CRNA
- Experience as a CRNA in smaller setting (without anesthesiologist supervision), OB, newborn/infant, child, adolescent, adult and geriatric

- All candidates will be required to upload professional licenses and certifications
- Must have current OB Anesthesia Experience
- At least 2 years of experience strongly preferred
- One year of experience as a CRNA required
