Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our company is hiring for a registered nurse care. Thank you in advance for taking a look at the list of responsibilities and qualifications. We look forward to reviewing your resume.

## Responsibilities for registered nurse care

- Apply clinical expertise and knowledge of nursing, care management, community resources and utilization management to establish transition plans
- Assessing, planning, implementing and evaluating patient care delivery systems
- Utilizing assessment findings, from all involved disciplines in formulating a plan of care
- Contributing data to assessments by other disciplines
- Reporting significant changes in patient to the provider
- Identifying specific patient goals
- Evaluating patient's progress toward achieving goals
- Collaborating with professional peers, members of the interdisciplinary team, and the providers of patient programs/services and community resources in meeting patient care needs
- Documenting care provided in the medical record accurately
- Assisting patients to plan for anticipated changes in life, to recognize the risk factors related to health, and to focus on strengths rather than weaknesses

## Qualifications for registered nurse care

- Competent to carry out any skilled procedures that the practitioner might order
- Previous public health or home health nursing experience is preferred, but not required

- Two (2) years of clinic experience in adult primary care, including knowledge and experience with adult populations with chronic conditions such as Diabetes, Hypertension, CHF, CKD and geriatric patients
- Experience with population management strategies for quality improvement
- Working knowledge of patient care management, including collaboration, negotiation, coordination of care w/ team members, & utilizing motivational & behavioral change theories to empower patients
