

Example of Resolution Analyst Job Description

Powered by www.VelvetJobs.com

Our growing company is hiring for a resolution analyst. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for resolution analyst

- Seek out certifications of data quoted in the regulatory submissions
- Assisting with administration, data transfer and data management within the submission document
- Assisting with aggregation of critical services inventories for appropriate representation in the plan
- Contributing information to financial models, forecasts, and estimates
- Developing and maintaining rigorous records of assumptions utilized in analyses
- Identifying potential risks
- Other duties will be assigned as the department and/or role evolves
- Assist with the annual Global Markets Wind-down activities
- Provide support to the quality audit related services to the Credit Resolution Group through the Internal Control process to ensure compliance developing and executing new audit procedures as new risks are identified internally or as a result of an audit or review
- Conduct best practices research, resolving control issues, and independently assessing management's design and effectiveness of the system of internal control

Qualifications for resolution analyst

- Understanding of Global Markets & Global Wholesale Banking functions

- Strong active listening, assimilation of information, analytical, communication, negotiation, writing, and judgment skills
- Personal time management, initiative, commitment to high quality, business acumen, and flexible/adaptability attributes
- Broad knowledge of banking, systems, regulations and procedures
- Ability to identify, analyze, and solve complex issues quickly with logic and reason
