

Example of Senior Manager Job Description

Powered by www.VelvetJobs.com

Our company is growing rapidly and is searching for experienced candidates for the position of senior manager. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for senior manager

- Provide tax compliance and/or advisory services to tax-exempt organizations
- Manage risk and financial performance of engagements including billings, collections, and project budgets
- Serves as leader of the PMU when designated as Engagement Manager, responsible for overseeing all home and field office activities, and ensures effective and efficient coordination between the two offices
- Manage one or two USAID-funded projects and oversees day-to-day implementation to ensure their successful completion within budget and scheduled time frame, from award through closeout
- May be charged with directly supervising the Chief of Party of designated program, including regularly discussing program performance and professional successes and challenges and conducting annual performance evaluations
- Support project start-ups and closeouts as needed, including regularly traveling to the field to support project initiatives and backfill project leadership as necessary
- Monitor consultant and subcontractor performance
- Train, mentor and supervise Program Managers and/or Associate Program Managers
- Manage team dynamics and workload
- Oversee formatting and submission of all project deliverables to DEC or the Prime Contractor and proper archiving

-
- 10+ years of Business Intelligence (Oracle BI, SAP BO) delivery, Relationship management, Development Team Management and/or Application Portfolio Management
 - Proven track record managing large, complex software development/integration projects
 - 10+ years of Capital Markets experience - ideally spanning multiple product lines and business functions
 - 10+ years of Business Intelligence experience - including exposure to two or more of the following (Cognos, Business Objects, SSRS, Actuate, Crystal Reports, Tableau, PowerPivot, or equivalent BI technologies)
 - Undergraduate or Post Graduate degree is an asset
 - Proven knowledge and experience in vendor relationship management
