

# Example of Senior UX Designer Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our innovative and growing company is hiring for a senior UX designer. If you are looking for an exciting place to work, please take a look at the list of qualifications below.

## Responsibilities for senior UX designer

- Rigorously analyse business and customer needs alongside potential design options
- Foster a team environment in which designers feel engaged and motivated
- Collaborate with PM, Dev, and Art Leads to deliver high quality products
- Create and present design solutions and strategies that bring the user story to life for a wide audience, and unify them around a common vision
- Ensure the layout, composition, and information architecture for products and product features to ensure that underlying functionality is exposed in a clear and consistent manner across all devices
- Assist in the production of guides, vision demos, and prototypes which establish and drive HR-wide concepts, brand narratives, and experience value propositions
- Executing standard UX documentation (eg, Site maps, wireframes, user flows, functional specifications)
- Working closely with technologists to understand platform capabilities, ideate creative technology solutions and provide solid development guidance
- Investigating new approaches to UX testing and design, incorporating them into the product offering as appropriate and training agency staff on their value and implementation
- Serving as an agency's UX expert by providing counsel and direction to brand teams and clients

## Qualifications for senior UX designer

- A keen interest and awareness of future developments in website, mobile, software and technology trends and innovations
- Experience in professional user interface design or related design disciplines
- Proficiency with several graphics tools (Photoshop, Illustrator, InDesign)
- Proficiency with wireframe and prototyping tools (Axure is current tool of choice)
- Ability to work on highly detailed projects, highly creative brand-driven projects
- At least 5-7 years of experience as a user experience designer, information designer, interaction designer, graphic designer, art/creative director or similar role
