

Example of Strategic Analyst Job Description

Powered by www.VelvetJobs.com

Our innovative and growing company is hiring for a strategic analyst. We appreciate you taking the time to review the list of qualifications and to apply for the position. If you don't fill all of the qualifications, you may still be considered depending on your level of experience.

Responsibilities for strategic analyst

- Analyze information using various statistical methods
- Perform financial analysis of current operations and growth opportunities
- Perform financial analysis and facilitate transactional due diligence for potential M&A opportunities
- Make recommendations for the integration of GHRN capacity management into existing Workforce Planning process and platforms
- Responsible for maintaining up-to-date knowledge of industry best practices and crowd-sourced staffing strategies
- Liaise with external technology vendors to review and recommend potential third-party software applications for integration into GHRN capacity management processes
- Develop, test, and validate experimental algorithms for demand and staffing models to drive meaningful predictive modeling
- Work closely with GHRN developers to understand system architecture as related to accurate tracking of key performance indicators and variables impacting staffing assumptions
- Maintain an understanding of both customer and provider experience to enrich effectiveness of staffing models
- Provide strategic recommendations based on data-driven, market-level analyses

Qualifications for strategic analyst

- Payment card network knowledge required
- Previous experience in fraud is an asset
- Proactive, with ability to obtain necessary information and influence others, at all levels in the organization
- Communication skills, with ability to clearly display and explain numerical information
- Critical, strategic thinking with the ability to multitask and work independently in a fast paced environment while displaying a positive attitude
