

Example of Strategy Advisor Job Description

Powered by www.VelvetJobs.com

Our company is hiring for a strategy advisor. Please review the list of responsibilities and qualifications. While this is our ideal list, we will consider candidates that do not necessarily have all of the qualifications, but have sufficient experience and talent.

Responsibilities for strategy advisor

- Serve as a key strategist in preparing DUHS for the changes in healthcare reform including Accountable Care, Clinically Integrated Networks, Patient Centered Medical Home, to ensure the Health System is well positioned to benefit from the changes in reimbursement from the payers
- Lead, mentor and develop staff and members of the Corporate Finance team
- Recommend new ideas and opportunities that have the opportunity to fuel the product pipeline and drive growth
- Advise on an ongoing governance process to determine which opportunities to assess and how to use the team's resources towards the areas of greatest potential return
- Ensure that for each opportunity assessment, the team has a clear scope of work, articulate framing of the opportunity and a clear action plan
- Conduct complex analyses, both quantitative and qualitative, and develop opportunity sizings and business cases around new ideas and opportunities
- Drive extensive cross functional collaboration with a variety of business partners and business units across the company, both to help generate the ongoing pipeline of new ideas and opportunities, to collaborate in assessing new business opportunities as appropriate
- Evaluate the external marketplace including leveraging ideas, best practices and opportunities from the healthcare and other industries as appropriate
- Work with 'Project Sponsors' (e.g., Sr Director/VP level and above) presenting key readouts of the analyses to leadership

Qualifications for strategy advisor

- Exceptional Excel and modeling skills
- 3+ years experience (Strategy and/or Finance background preferred but not required)
- Ability to travel as required – estimated at 25% overnight travel
- Training/certification or college certificate in Quality Management (ITIL, Six Sigma, TQM)
- Training/certification or college/technical school certificate in Network Security (CISSP, Security+, SANS, ISACA, Vendor Certificates)
