

## Example of Supply Chain Lead Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our company is looking to fill the role of supply chain lead. We appreciate you taking the time to review the list of qualifications and to apply for the position. If you don't fill all of the qualifications, you may still be considered depending on your level of experience.

### Responsibilities for supply chain lead

- The role works closely with the commercial team to reach demand and supply alignment via the regional S&OP process
- Develop reports on demand, inventory, production, and/or distribution plans for assigned programs or product types from various systems like Oracle MRP, ASCP, planning systems and databases
- Lead and coordinate activities within global operations to ensure uninterrupted supply against customer demand
- Supports and/or leads continuous improvement projects to drive expanded capabilities and improve the efficiency of existing processes
- Builds the SCM site strategy, develops plans in collaboration with stakeholders, builds tactical plans and executes these in line with the daily operations to achieve E2E product flow and business benefits
- Guides and supports the teams in the daily execution of product supply to our patients world wide
- Connects to internal and external suppliers and establishes reliable supply, partnership and continuous improvement under the World Class Supplier principles
- Integrates with key external suppliers and establishes advanced SCM practices in favour of improved inventory policies, reduced lead-times and elimination of waste
- Ensures flow in and between the warehouses/site, continuously eliminates waste and builds a culture of safety in all we think and do

## Qualifications for supply chain lead

- 15+ years of experience in AFMC or AFSC maintenance and logistics operations
- Experience with leading the implementation of large scale supply chain or organizational transformations within the AFSC or AFMC
- Knowledge of Air Force logistics strategy and performance improvement goals and objectives
- Ability to influence senior Air Force and DoD logistics leadership in developing and implementing supply chain and organizational improvement initiatives
- BS degree in a technical discipline preferred
- 6+ years of progressive experience working within a supply chain environment within an operations organization
