

# Example of Training Services Job Description

Powered by [www.VelvetJobs.com](http://www.VelvetJobs.com)

Our company is growing rapidly and is looking to fill the role of training services. Thank you in advance for taking a look at the list of responsibilities and qualifications. We look forward to reviewing your resume.

## Responsibilities for training services

- Coordinate the delivery of online classroom learning events by providing logistical, technical, and administrative support
  - Assist customers with initial setup and technical problems before and during class by e-mail, IM, and phone
  - Gather and document issues with classroom systems and communicate broadly to specific Training Services staff to ensure reliable systems performance and resolution of issues
  - Communicate with the Training Services team to ensure educational media content is tested and verified as suitable for online delivery
  - Assist with the selection and recommendation of new training delivery applications and infrastructure
  - Lead SBU efforts to develop and utilize distant learning through on-line tools to expand base of knowledge for Services employees
  - Envision, design, and develop internal applications and system architectures for the Training Department
  - Partner with IST to integrate our interfaces with enterprise business applications and security infrastructure
  - Build system architectures to support multiple training applications
  - Consults, teaches and models Applied Behavior Analysis Methodology for educational staff in the community (e.g., public schools, home-based programs, private agencies and other programs) who instruct learners with autism
-

- Audit on-site implementation for program effectiveness
- Conduct ad-hoc training sessions as needed
- Bachelors or equivalent and a minimum of 2 years of relevant experience
- Experience in Industrial Quality, Safety, Maintenance or Construction
- Experience with developing, implementing and / or training education and training programs
- Skilled in the use of MS Outlook, Excel and Word
