

Example of Vet Tech Job Description

Powered by www.VelvetJobs.com

Our innovative and growing company is hiring for a vet tech. Thank you in advance for taking a look at the list of responsibilities and qualifications. We look forward to reviewing your resume.

Responsibilities for vet tech

- Develop a sanitation schedule for all large animal facilities and assist in sanitizing the facilities
- Be familiar with normal behavior and health parameters of all farm animals to include, but not limited to goats and other farm animals
- Perform routine animal husbandry procedures such as hoof trimming on goats as necessary to maintain their hooves in a normal, healthy condition. Assist with vaccination and deworming procedures
- Assist animal technicians and veterinarians by providing restraint of animals for treatments and examinations
- Monitor condition of and make minor repairs to fences located on farm property to ensure animal safety and prevent escape
- Maintain pastures, to include but not limited to dragging pastures for parasite control, mowing pastures as necessary for weed control, and coordinating and keeping records of pasture rotation to minimize parasite loads
- Monitor VMD supply usage and stock levels in the warehouse
- As needed/requested, collect supplies or equipment from warehouses or loading docks and distribute to the point of use and/or storage by established deadlines
- Establish a manure pile for future use as a fertilizer on pastures
- Monitor the sewage pit and notify the TPOC, TOCOR, or Director, VMD (or designated representative) of the need for pit emptying as needed, providing a minimum of three (3) weeks lead time

-
- Extensive knowledge and technical proficiency in standard molecular biology techniques to work independently in the design and generation of complex targeting constructs
 - Phlebotomy in rodents and rabbits
 - A minimum of 2 years of relevant technical experience with rodents and rabbits in a laboratory setting is required for this position
 - Operate farm and warehouse equipment including, but not limited to VMD box truck, dual-axled pickup truck, tractors, skid loader, manure spreader, mower, plow, cultivator, disc, seeding equipment, bush hog, pallet jack, horse trailer, and forklifts
 - Perform operator level maintenance and repair on farm equipment and all vehicles as listed above
 - Coordinate with in-house or outside sources to perform routine maintenance or repair equipment as needed
